## **DETAILED ACTION**

### ***Rejections Repeated***

1. The 35 U.S.C. 103(a) rejection of claims 1-4 unpatentable over Inoue et al. in view of Kageyama and in further view of Endo has been repeated as previously made in office action mailed on 12/14/07.

### ***Response to Arguments***

2. Applicant's arguments filed 3/14/08 have been fully considered but they are not persuasive.

In response to applicant's argument that the examiner's conclusion of obviousness is based upon improper hindsight reasoning, it must be recognized that any judgment on obviousness is in a sense necessarily a reconstruction based upon hindsight reasoning. But so long as it takes into account only knowledge which was within the level of ordinary skill at the time the claimed invention was made, and does not include knowledge gleaned only from the applicant's disclosure, such a reconstruction is proper. See *In re McLaughlin*, 443 F.2d 1392, 170 USPQ 209 (CCPA 1971).

In response to applicant's argument that Endo fail to disclose does not teach the intersecting point between the circular parts and the linear parts that act as a breakage point, Endo teaches that the rounded corners of the sealing plate comprises cleavage parts (abstract and figure 1 and 4).

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
